

Summer Safety Tips for Parents, Summer Camps and Day Care Centers

By David A. Wolf

<http://www.woodatter.com/>

Summer is a great time for kids to play and have fun. Usually, summer time is filled with great memories. Unfortunately, some children in past summers and this summer as well will have memories of personal injuries suffered over the summer. There are actions that can be taken to help prevent or at least reduce the number of child personal injuries.

Common activities that involve personal injuries to children include the following

Boating, Jet Ski, and Personal Water Craft Personal Injuries;

Severe / Bad Weather / Lightning Personal Injuries;

Leaving Children Unsupervised at Home (Personal Injuries at Home);

Insect Bite Personal Injuries;

Sun Exposure Personal Injuries;

Playground Personal Injuries;

Automobile Accidents / Bicycle Accidents / Pedestrian Accidents - Personal Injuries;

Drownings - Personal Injuries and Deaths;

Poison Related Personal Injuries; and

Head Injuries / Brain Injuries / Personal Injures.

You can read about how children are injured during the above activities along with safety tips to reduce or prevent the incidents of injuries at [Keeping Children Safe Over the Summer](#).
