LOS GATOS, CALIFORNIA (February 7, 2011) – Chapter11Cases.com today launched a database of over 5,000 of the most important bankruptcy court pleadings filed since the beginning of 2008 with each document available to anyone for only \$0.99. - Plans of Reorganization and Liquidation
- Disclosure Statements
- Solicitation Procedures Orders
- Confirmation Orders
- Asset Sale Motions
- Bidding Procedures Orders
- Asset Sale Approval/Denial Orders
- First Day Pleadings and Orders

“We firmly believe that bankruptcy court filings hold great value for not only attorneys, but also creditors, investors and anyone else with an interest in corporate bankruptcy cases,” said the company’s president and founder, Randall Reese. “However, these documents have always been hidden behind paywalls in inefficient court databases. We have been working for over three years to unlock the value of these documents for our users and are extremely pleased to be able to announce that today we are making so many of the most important documents available to everyone for less than a dollar each – ***significantly less than what the federal courts charge users for the exact same documents.***”
