On April 26th, the U.S. Environmental Protection Agency published in the Federal Register its [Semiannual Regulatory Agenda](#). The Agenda identified seven themes to focus the regulatory work of EPA:

- (1) Taking Action on Climate Change,
- (2) Improving Air Quality,
- (3) Assuring the Safety of Chemicals,
- (4) Cleaning Up Our Communities,
- (5) Protecting America's Waters,
- (6) Expanding the Conversation on Environmentalism and Working for Environmental Justice, and
- (7) Building Strong State and Tribal Partnerships.

As reported on this blog, U.S. EPA has already commenced action on several of these goals by proposing or finalizing regulations.
