Proposed Title:

Invention Type:

(1) *Apparatus* –

(2) *Method* –

Problem:

Describe the problem(s) you are attempting to solve.

Prior Art:

To the extent already known to you, please give a brief description of how the problem has been addressed in the past, include for each approach the limitations and disadvantages of what's been done in the past to solve this problem.

Utility:

What are possible uses for your invention (in or outside your particular field or application area)?

Solution:

How does your invention advantageously solve the problem(s) left un-addressed above?

Component Synergy:

Please describe the components involved in your invention, their operation, and how they work together to solve the problem? You can indicate to see attachment or video.

Discrete Components:

Please describe the sequential steps involved in your invention, identify the result of each interim step and how each result is used in the next step to ultimately solve the problem.

Please include at least one drawing of the invention and refer to it throughout your description.

[The drawing does not have to be formal, only legible and may be submitted electronically as part of this form or in hard copy as described in the instructions which follow at the end of this document. You may use pre-existing documents or diagrams (e.g., an existing presentation), provided that the materials sufficiently describe the components/steps of your invention.]

Novelty:

What features of your invention do you believe are new or provide the improvement over what has been done before to solve this problem(s)?

Public Disclosure:

Has the invention been used or disclosed outside your organization? Yes/No? Date

Public Disclosure Date:

If yes, please briefly describe the circumstances (e.g., trade show, presentation, technical paper, field test, offered for sale, under confidentially agreement, etc.) and give the date(s) for each.

Anticipated Public Disclosure:

*If previously **not** used or disclosed outside of your organization, when do you anticipate it will be used or disclosed (deployment date, trial date, public disclosure, offered for sale)? (if known).*

Reduce-to-Practice Date:

Date the invention was first built and tested internally or under confidentially agreement including prototypes. Please briefly describe circumstances.

Offer-for-Sale:

Has the invention been offered for sale? (Yes/No)? Date

Development Contract:

*Did the invention result from work on a development contract with another company/person? Yes/No?
If yes, who was the contracting (Company/Person)? What was the name of the contract or project?*
