

## Medical Cannabis Investment Opportunities

Private Placement Advisors ([www.lawofficesofdouglaslaine.com](http://www.lawofficesofdouglaslaine.com)), with Medical Cannabis Law Group ([www.lawandpractice.com](http://www.lawandpractice.com)), offers business plans and PPMs for exempt offerings of medical marijuana real estate and grow operations as well as medical marijuana dispensaries and delivery services.

We offer business plans for:

- Accredited and sophisticated investors who want property to grow, including vineyard property, in Sonoma and other Northern California counties. We also advise and consult on locating properties and property managers, insurance, security, full legal compliance and documentation, and selective introductions to Oakland, SF, and LA medical cannabis-approved outlets.
- Growers who want to invest in dispensary and/or delivery services. This is an opportunity for growers to learn more about the downstream market while diversifying.
- Dispensaries and delivery services who want to invest in grow operations. This can be a good way to leverage profits and diversify at the same time.
- Transporting, brokering and related services who seek investors. This is cutting edge stuff and done on a case by case basis.

Fees for services are found at the “Fees” page at [www.privateplacementadvisors.com](http://www.privateplacementadvisors.com), or email [dslaine@privateplacementadvisors.com](mailto:dslaine@privateplacementadvisors.com).
