Unfiltered Orange |
Weekly eDiscovery News Update – June 27, 2012
Special Technology Assisted Review Edition

With the increased interest from the legal community on the eDiscovery technique of *technology assisted review,* provided below for your convenience is a compilation of articles, opinions and explanations related to the theory, practice and interpretation of this increasingly prevalent and certainly relevant discovery discipline.

This compilation is a special edition of the weekly Unfiltered Orange Weekly eDiscovery News Update. Highlighted in Forbes' Law & Technology Blog as one of Eight Great Law & Technology Resources, Orange Legal Technologies' *Unfiltered Orange* Weekly eDiscovery News Update provides readers with a trusted compilation of key public domain eDiscovery news, views and events.

To receive the weekly update, sign up at: http://bit.ly/y6y0DW.

For up to the minute news updates, visit OrangeLT on Twitter, Google+, LinkedIn, Pinterest, or RSS. (http://www.orangelt.com)

About Orange Legal Technologies

OrangeLT™ is a leading provider of electronic discovery litigation, audit, and investigation services for law firms and corporations. Having served over 500 clients since inception and with over 100 clients leveraging the OneO® Discovery Platform since its introduction, Orange Legal Technologies has worked with some of the world's most well known corporations and law firms.

OrangeLT™ offers a complete suite of electronic discovery services, including collection, analysis, processing, review and production of digital and paper-based information. OrangeLT™ is enabled by the OneO® Discovery Platform – an integrated, web-accessible electronic discovery platform that provides online analysis, processing, and review of unstructured data from the security of a hosted centralized repository.
