*This one is a real page turner--and a great debut novel from Melanie Bragg."*  
Kathleen Welton, Publishing Consultant, Former Head of American Bar Association Books.

*"Melanie hit a home run on this one. I loved the fast-paced story line that kept me turning the pages to the end to see what happened next. The comfortable but descriptive conversations of characters and the familiar Houston landmarks had me hooked. The touching ending had me grabbing a tissue to wipe away my tears. I hope we hear more from these characters. They could have me coming back for more! Congratulations and Kuddos!"* Anne Richardson, Carlisle Collection.

Crosstown Park is a fast paced legal thriller about a young lawyer and an elderly preacher who team up to save a foster home in the ghetto.
