Lawyers Without Rights

[Lawyers Without Rights](#) is an important documentary exhibit coming to the [Mark O. Hatfield US Courthouse](#) October 19-November 16, 2012. Depicting the fate of Jewish lawyers in Germany after 1933, the exhibit “recalls the lawyers who were persecuted by the National Socialists and addresses the illegal measures they had to endure ... making the extent of loss caused by isolation, expulsion and murder painfully clear. Through different biographical portraits it also gives the viewer new insight into both the historical events and the legal realm.”

Read more about this event [here](#). The exhibit is free and open to the public. Also planned – a lecture featuring [Oregon federal public defender Steven Wax](#) - on November 1 at 6:00 pm. Presented by [Zeitgeist NW](#) in partnership with the [Oregon State Bar International Law Section](#).
