

Oregon Law Practice Management

Practice Management Tips for Oregon Lawyers

Phone Systems for Lawyers

Occasionally lawyers ask for recommendations on phone systems – should they invest in a PBX, go with VoIP, or a hybrid of the two?

Thanks to the ABA Site-tation we now have an [excellent overview](#) of these options and some helpful resources:

- [Phone and Communications Systems For the Solo and Small Firm](#) – ABA GP Solo and Small Firm Division
- [Assessing VoIP Services for Law Firms](#) – ABA Law Practice Management
- [Expand Your Reach with a Virtual PBX](#) – ABA Section of Family Law (Scroll to bottom of page to view article)
- [Dawn of the UMS Subpoena](#) – ABA Law Practice Today
- [Telephone Systems Buyer's Guide](#)- BuyerZone

If you're shopping for cheap/free resources that serve a mobile practice, consider [Google Voice](#). If you want the cadillac of virtual receptionists, please [Call Ruby](#). (I'm a long-time fan and was pleased as punch to see that [I am not alone in this assessment](#).)
