

J&J Recalls More Tylenol Bottles Due to Musty Odor

Written On April 4, 2011 By [Bob Kraft](#)

Johnson & Johnson has been forced to recall another batch of Tylenol due to a musty odor. This same problem has already caused five other recalls of Tylenol by the company.

This recall includes almost 35,000 bottles of Tylenol 8 Hour Extended Release. The lot number, ADM074 appears on the bottom of each bottle.

Johnson & Johnson has recalled several products over the past few years, including Children's Tylenol, Benadryl, Sudafed, Roloids, contact lenses, and hip replacements.
